Lighting Care & Cleaning Guide

KEEP YOUR LIGHTS BEAUTIFUL & LONG-LASTING

Lighting Care & Cleaning Guide

Safety & Storage

- Always switch off power before cleaning or maintenance.
- Allow bulbs to cool before handling.
- Store products in a cool, dry, low-humidity space, ideally in original packaging.

General Cleaning Rules

- **Materials Care**
 - Clean regularly to prevent dust and dirt buildup.
 - Use a soft cloth only (dry or slightly damp)
 - Test any new cleaning product on a hidden area first

Quick Do's & Don'ts:

- Do:
- Clean gently and regularly,
- Use soft cloths and mild solutions
- Dry thoroughly after cleaning

Interior Lighting

Metal / Painted / Plastic

- Wipe with soft dry cloth.
- If dirty, use damp cloth → dry immediately
- **Glass**
 - Use soft cloth or mild detergent solution.
 - Remove & rinse separately if possible.
 - Dry fully before reassembly.

Coastal / Humid Interiors

- Salt in air can cause corrosion, clean regularly with damp lint-free cloth (if dry thoroughly)
- Keep humidity controlled (close windows, use AC if possible)

Exterior Lighting

General Maintenance

- Clean at least every 6 months (more often if needed)
- Remove dirt, plants, and bird droppings.
- Do not use pressure washers
- Avoid contact with garden chemicals

Metal (stainless steel, brass, painted)

- Wash with warm water + mild detergent.
- Rinse and dry thoroughly
- Avoid contact with garden chemicals

Concrete

- Natural aging/oxidation is fine.
- Rinse periodically to maintain even appearance.
